

**Assignment 3 (40 Points)**  
**Due on October 14**

For this assignment you will expand your website from Assignment 2 to add CSS functionality to the website.

**Sample Pages:**

**Index.html:**

The screenshot shows a web browser window with the title "JavaJam Coffee House". The page features a black logo icon on the left containing a stylized coffee cup with steam. To the right of the logo, the text "JavaJam Coffee House" is displayed in a large, bold, black font. Below the logo and title is a navigation bar with links for "Home", "Menu", "Music", and "Jobs", all in blue text. The main content area contains a heading "Follow the Winding Road to JavaJam" followed by a paragraph of text: "We're a little out of the way, but take a drive down Garrett Bay Road to JavaJam today! Indulge in our locally roasted free-trade coffee and home-made pastries. You'll feel right at home at JavaJam!" To the right of the text is a photograph of a winding road through a forest with autumn-colored trees. At the bottom of the page is a brown footer bar with the copyright notice "Copyright © 2018 JavaJam Coffee House" and the email address "yourfirstname@yourlastname.com".

## Menu.html/Services.html:

The screenshot shows a web browser window titled "JavaJam Coffee House Menu". The page features a black coffee cup icon with steam on the left. The main title "JavaJam Coffee House" is in large, bold, black letters on a brown header bar. Below the title is a navigation menu with links for "Home", "Menu", "Music", and "Jobs". The "Menu" link is underlined, indicating it is the active page. The main content area is titled "Coffee at JavaJam" and contains descriptive text and price information for various coffee options. To the right of the text is a photograph of a wooden shelving unit filled with various coffee mugs. At the bottom of the page is a copyright notice and a placeholder email address.

**JavaJam Coffee House**

**FAQ Page/Music Page/About Us/etc.**

The screenshot shows a web browser window with the title "JavaJam Coffee House Music". The page has a yellow header with a black logo containing a stylized coffee cup icon. The main title "JavaJam Coffee House" is in large, bold, black font. Below the title is a navigation bar with links "Home", "Menu", "Music", and "Jobs". A section titled "Coffee at JavaJam" contains text about a monthly event. The page features a calendar section with two entries: "January" and "February", each with a small profile picture and a brief description of the performer.

JavaJam Coffee House

Home Menu Music Jobs

**Coffee at JavaJam**

The first Friday night each month at JavaJam is a special night. Join us from 8 pm to 11 pm for some music you won't want to miss!

**January**

 Melanie Morris entertains with her melodic folk style.

**February**

 Tahoe Greg is back from his tour. New songs. New stories.

**Instructions:****Global:**

1. Get a logo for the website and place it next to the title of the website (Refer to the screenshots)
2. Choose your own fonts for h1, h2, h3, h4, p, footer, etc.
3. Remove the hyperlinks for Navigation Bar
4. Configure :active, :hover, :visited and a styling by setting your own color for each one of these events.

**Index.html:**

1. Replace your Home Page Section to a short attention-grabbing statement.
2. Add an image to the right side of the page (Hint: Define a floating in CSS) and have the text centered to the left side of the page.
3. Ensure that you have a paragraph under the section describing an overview of your website.
4. Add H3 after the paragraph titled “Features”.
5. Create an unordered list, where you will list the highlights of the business.

**Services.html/Menu.html:**

1. Add an image to the right side of the page (Hint: Define a floating in CSS) and have the text centered to the left side of the page.
2. Ensure that you have a paragraph under the section describing a short statement of the menu or services that you have to offer.

**FAQ Page/Music Page/About Us/Etc:**

1. Duplicate either services.html or menu.html and name it to a different file.
2. From there, change the page title/header title to an appropriate phrase.
3. Create a paragraph under the section describing a short statement of the page that you have to offer.
4. Configure a div section for every question, event information, points, etc that will have h4 defined as the title (with css that will have a background color/image, text-align, box-shadow and padding) and a paragraph that will be indented to have a description and an image that can be floated to the left or right of the indented paragraph).

**Deliverables:**

- A zip file uploaded to Github consisting the following items:
  - HTML files
  - Comments on your HTML source code
  - Wireframe of your implemented pages
  - Reporting info (to be posted on Github)
  - Your output
